

Let's take a common example: a person who has been convicted of a crime and is sentenced to prison. The person is not a criminal, but the system has labeled them as such. This is a form of social control, where the system is trying to manage the behavior of the individual. The person is not a criminal, but the system has labeled them as such. This is a form of social control, where the system is trying to manage the behavior of the individual.
